WDE CTE

WYOMING APPROVED LIST OF INDUSTRY RECOGNIZED CREDENTIALS AND CERTIFICATIONS

Wyoming Department of Education

122 W. 25th St., Ste. E200 | Cheyenne, WY 82002

P: 307-777-7675 | F: 307-777-6234 | edu.wyoming.gov

INTRODUCTION

One of the primary goals of The Wyoming' Department of Education's (WDE) Career and Technical Education (CTE) team is to increase the number of industry-recognized credentials and certificates (IRC) for students enrolled in CTE courses in secondary and post-secondary schools.

Many U.S. jobs will require some form of secondary or postsecondary credentials or certifications. If current trends continue, the nationwide supply of workers with relevant degrees and credentials in 2025 will be 23 million short of the 62 million high-quality job openings American employers must fill.

To help Wyoming's CTE educators identify the specific credentials and certificates that employers are seeking, the WDE has developed an initial list of Industry-recognized credentials and certifications based on extensive analysis of Wyoming's labor market data and on detailed feedback from employers and educators statewide.

A credential is defined as "a recognized degree, diploma, certificate or certification awarded for an occupation." Industry-recognized credentials have the following characteristics:

Valued and preferred by employers

Portable – skills learned are transferable and provide broad opportunities

Stackable – skills learned may lead to opportunities for continuous or advanced training and education

Lead to higher wages, career advancement, and/or increased job security

This industry-recognized Credential List will be reviewed and updated each biennium by the WDE CTE team in conjunction with our educators and business and industry partners.

School district administration and teachers may submit IRCs to the Wyoming Department of Education (WDE) for consideration. Please read the entire application carefully before beginning to ensure the credential meets all of the requirements and that the necessary data and evidence are available.

Industry-Recognized Credential and Certification Application

Interested parties are invited to continue offering comments and suggestions to continually improve the list's content and accuracy. Comments should be directed to the WDE CTE Team at wde.cte-team@wyo.gov.

Please note that the credentials and certifications on this list are the only IRCs that are eligible for reimbursement by the WDE to school districts through Perkins V funding. The programs of study must be listed on the approved Perkins V application. Please use the provided IRC invoice to receive reimbursement.

AGRICULTURE, FOOD & NATURAL RESOURCES

Agricultural Proficiency Awards (FFA)
American Welding Society (AWS)
AMSA Culinary Meat Selection & Cookery Certification (iCEV)
AMSA Food Safety & Science Certification (iCEV)
AMSA Meat Evaluation Certification (iCEV)
Animal Well Being (YQCA)
Automotive Service Excellence Automobile Series (ASE)
Automotive Service Excellence Collision, Repair & Refinish Series (ASE)
BASF Plant Science Certificate (iCEV)
Beef Quality Assurance Certification
Career Essentials Advanced Experiences
Center for Financial Responsibility Personal Financial Literacy Certification (iCEV)
Communication Skills for Business (Certiport)
Ducks Unlimited Ecology Conservation & Management Certification (iCEV)
Elanco Fundamentals of Animal Science Certification (iCEV)
Elanco Veterinary Medical Applications Certification (iCEV)
Equipment & Engine Training Council (EETC) Principles of Small Engine Technology Certification (iCEV)
Express Employment Professional Career Preparedness Certification (iCEV)
Food Safety (YQCA)
Guest Service Gold® Tourism Certification (AHLEI)
Hazardous Occupational Safety Training in AG (HOSTA)
National Horse Judging Team Coaches Association (NHJTCA) Equine Management & Evaluation Certification
National Radon Safety Board Certification
NCLCA Principles of Livestock Selection & Evaluation Certification (iCEV)
Occupational Safety and Health Administration (OSHA) 10 Certification (CareerSafe)(General Industry)
Part 107 FAA UAS Remote Pilots License
Photovoltaic Installer – Level 1 (PVI1) (ETA-I)
Pork Quality Assurance
ServSafe® Manager Food Safety
SoftSkillsAHA
Southwest Airlines Professional Communications Certification (iCEV)
SP2 Safety Certification
State FFA Degree
Woodwork Career Alliance
Wyoming Pesticide Applicator Certification
Youth Apprenticeship Certification

ARCHITECTURE & CONSTRUCTION

American Welding Society SENSE (AWS)
Associate Certified Electronics Technician (CETa) (ETA-I)
AutoCAD User Certification Prep (SolidProfessor)
AutoCAD(TOSA)
Autodesk Certified Associate (Autodesk Design Academy)
Autodesk Certified User (ACU) (Certiport)

FREQUENTLY ASKED QUESTIONS

Can I use different IRCs in the same program of study for students?

Yes, you may choose different IRCs for each of your students in the same program of study. WDE realizes that each of the students are unique in their needs and career aspirations. However, the IRC that is given MUST be selected from the career cluster from the associated program of study. For example: A Hospitality and Tourism-Restaurant Management program of study has 20 students. Fifteen (15) of the students are interested in going into Restaurant management and are prepared to take ServSafe® Manager Food Safety. The remainder of the class are not interested in going into management. You can give the 5 remaining students the Guest Service Gold® Tourism Certification (AHLEI) which is a highly regarded customer service certification.

How does WDE build the list for approved Industry-Recognized Credentials?

The WDE adopted a framework for determining industry-recognized credentials that qualify for reimbursement from Perkins V funding. WDE review applications in conjunction with the biennial Perkins grant year.

When an application is received for an IRC to be added to the approved list it is placed on the survey that is sent to local business and industry partners through their associations, the Wyoming Business Council, Workforce Services, and other types of partnerships. When the feedback is received from the business and industry partners, their feedback is forwarded through a survey to the teachers in the correlated programs of study for review and feedback.

That information from both business and industry as well as educators are compiled and analyzed along with the JobsEQ market analysis. The resulting IRCs will be added to the list of approved credentials.

How does my district get reimbursed for IRCs that have been successfully completed in a Perkins V-approved program of study?

Once a student has BOTH "C" courses on a student's transcript, the district will assess the student with a WDE approved IRC for that program. If the IRC is from the program of study in a Perkins V funded district, the IRC used should be what was listed for that program of study on the district's Perkins V approved application.

The district will upload a copy of the achieved IRC into the WyCTE Data Collection and complete the invoice (a copy of which is included in this guide) and email to the WDE CTE Director for review and approval. WDE will reimburse for only ONE successfully completed IRC per student for Perkins V funded programs of study.

After the certificates in the WyCTE Collection is verified by WDE the invoice will be processed for reimbursement.
