WYSAC ASKED TO CONDUCT STATEWIDE CHARACTER EDUCATION QUESTIONNAIRE

Two or fewer staffers asked to complete survey

CHEYENNE - The Wyoming Survey and Analysis Center (WYSAC) has been asked through a federal grant to conduct a statewide questionnaire regarding the breadth and depth of character education programs in Wyoming schools.

The impact is minimal - only one to two staff members within each district will be asked to complete the short 15-to-20 minute survey. WYSAC and the department ask for your support in this endeavor.

The information will help educators understand what is being done to promote traits that are influential in reducing problem behaviors. The information will also be available to districts and schools to assist local education efforts.
