MEMORANDUM NO. 2009-075

TO: School District Superintendents

FROM: Debra Smith, Education Consultant *DRS*
Special Programs Unit

DATE: May 8, 2009

SUBJECT: Special Education District Report Card and District Self-Assessment Summary Table – 2009

INFORMATION TO SHARE

The Wyoming Department of Education (WDE) utilizes the State Performance Plan (SPP) as a key component of its general supervision system under Part B of the IDEA. Specifically the SPP includes twenty performance indicators which measure improvement outcomes for students with disabilities.

Throughout the year districts are required to submit specific information regarding compliance and achievement with each of the twenty SPP indicators. Each district will be receiving a Report Card and Summary Table, which are two important tools which summarize and provide specific feedback on each indicator.

The Report Card addresses compliance on all twenty performance indicators; the report includes how the district measured against state set targets. The Summary Table specifically provides a summary analysis of the additional information on four of the twenty indicators as part of the WDE's self-assessment process; some of these areas may need further action. To view the Report Card via the WDE website, follow this link http://www.k12.wy.us/SE/Docs/spp_reportcard.PDF.

Please contact Deb Smith with any questions at (307) 777-2570 or dsmith@educ.state.wy.us.
