SUBJECT: School Year 2010-11 Questionable Experience Report Release

IMPORTANT INFORMATION

Each year, the Wyoming Department of Education (WDE) releases a Questionable Experience Report to districts. The report contains school year 2010-11 comparisons between district reported WDE602 – WISE School District Staff Member Collection (WDE602) experience data and WDE expected experience data. Differences between district reported experience and WDE expected experience are displayed by Wyoming Funding Model “experience group” (i.e. Teacher, Aide, Principal/Assistant Principal, etc.).

In the past, this report was generated manually in Excel and individually emailed to districts. The school year 2010-11 Questionable Experience Report has been automated and is now available on the Wyoming Education Fusion website via the following link:

<https://fusion.edu.wyoming.gov/Directory/Web/Pages/WDE602/WDE602QuestionableExperience.aspx>. District business managers and WDE602 contacts have access to view this report. If you have problems accessing the report, please contact your district’s Fusion administrator or Cassie Lallak at clalla@educ.state.wy.us or 307-777-5463.

School year 2010-11 experience data will be used in fiscal year 2011-12 funding determinations. Please review your district’s report and make any necessary adjustments to WDE602 reported data via the State Report Manager (SRM) by February 16, 2011. For content or submission questions concerning
