Mid-continental Regional Educational Laboratory (McREL), under guidance from the Wyoming Department of Education (WDE) standards team, has developed standards transition documents for language arts and mathematics. These documents are intended to assist school districts in the transition between the 2008 Wyoming Content and Performance Standards and the 2011 Wyoming Content and Performance Standards, which will include the Common Core State Standards.

The documents can be found on the WDE website under the following link: <http://edu.wyoming.gov/Programs/standards.aspx>. Click on either the Language Arts Transition Document or Mathematics Transition Document link. The DRAFT 2011 Wyoming Content and Performance Standards for language arts and mathematics can be found on the WDE standards webpage, or by going to www.corestandards.org.
