## MEMORANDUM NO. 2016-085

**TO:** School District Superintendents  
Technology Directors

**FROM:** Brent Bacon, Chief Academic Officer

**DATE:** June 13, 2016

**SUBJECT:** School Technology and Connectivity Infrastructure Survey

# STATEWIDE DIGITAL LEARNING PLAN - SCHOOL TECHNOLOGY INFRASTRUCTURE SURVEY

The Wyoming Department of Education has joined the Governor's Office, the Department of Enterprise Technology Services, school districts, and the Wyoming State Library to participate in the K-12 Broadband and Digital Learning Academy, along with five other states. This ten-month program is made possible through a partnership between the National Governor's Association and national non-profit EducationSuperHighway. The program focuses on developing and executing a plan to upgrade all schools to help students and educators take advantage of digital learning. The Wyoming team is working to improve connectivity by adding Wi-Fi access points to classrooms across the state.

Please have the technology director complete the brief [Infrastructure Survey](#) for each school in the district. School district perspective is crucial, as the survey responses will be used to determine the path forward in the Statewide Digital Learning Plan. The Infrastructure Survey must be completed by close of business on Friday, June 30.
