MEMORANDUM NO. 2017-031

TO: School District Superintendents
Curriculum Directors
Principals
K-12 Math Teachers

FROM: Lisa Weigel, Chief Policy Officer

DATE: March 13, 2017

SUBJECT: 2012 Wyoming Mathematics Content & Performance Standards

CALL FOR EDUCATOR PARTICIPANTS AND INPUT ON 2012 MATH STANDARDS

The Wyoming Department of Education (WDE) is seeking residents who are interested in serving on the Wyoming Math Standards Review Committee (MSRC). The work of this committee begins in the summer of 2017, with 2-6 days of meetings June through August. Additional meetings may occur throughout the next year. Math standards outline what students should know and be able to do at the end of each grade level and by the time they graduate. Standards are concise written descriptions that describe educational objectives. They do not describe any particular teaching practice, curriculum, or assessment method.

Those interested in serving on this committee should complete the [Call for Participants Survey](#). The survey closes at 11:59 p.m. on April 11, 2017.

Completing this survey expresses interest in participating, and does not commit anyone to serving on the Review Committee. Standards committee members will be chosen from the list of those interested and will be contacted directly through the e-mail address provided in the survey.

The WDE continues to collect educator feedback on the current 2012 Wyoming Mathematics Standards. Educators may choose to respond

anonymously. The information collected from this survey is intended to identify areas for additional professional development and resource support, and to identify areas of concern for future MSRC consideration. Math teachers are encouraged to complete the [Educator Input Survey on 2012 Math Standards](#).

For questions, contact Jill Stringer, Math Consultant, at 307-777-5036 or jill.stringer@wyo.gov.
