

Western Regional Early Intervention Conference

Paths to Literacy

For over 30 years, the Western Regional Early Intervention Conference (WREIC) has supported professionals working with children who are deaf, hard of hearing, blind, visually impaired, or deaf-blind, as well as their families. Speakers and workshops at the WREIC focus on the most current research, new technology and resources, and the best practices in this ever-evolving field.

The theme for the 2015 WREIC is "Traditions and Innovations: Assessments, Literacy, and Strategies Designed to assist Service Providers and Families of Children with Sensory Impairments".

Event Info

September 16-18, 2015
Hotel Albuquerque
Albuquerque, New Mexico
