

Activity Bank www.perkinselearning.org/strategies

A platform for teachers and others interested in the education of children who are blind or visually impaired to post activities and practical strategies relating to a range of subjects. Those who post activities can earn continuing education credits, as well as share and comment on other people's activities.

Workshops www.perkinselearning.org/workshops

Online workshops are a "mini" online course. They offer a more in-depth asynchronous learning experience with a cohort of professionals with similar needs and interests AND continuing education credit. The first online workshop will begin in January on the topic of *Individualized Education Programs for Students who are Blind or Visually Impaired including those with Additional Disabilities*.

Tutorials www.perkins.org/resources/tutorials

These web-based, self-guided training materials are bundles of professional development resources covering a range of topics, including communication, visual impairment & blindness, and curriculum & instruction. ACVREP and continuing education credits are available.

Paths to Literacy www.pathstoliteracy.org

A new website with interactive resources to assist educators and families in providing literacy experiences for children who are blind or visually impaired. Information includes an overview of literacy, ideas for children at various stages of development, and an exploration of different media: print, braille, and auditory strategies.

Webinars www.perkins.org/resources/webinars

Broadcast live and for free, on an easy to use web conferencing platform. Ask questions and learn from experts in the field of visual impairment and deafblindness. If you miss the live broadcast, no problem! Streaming video will be ready to view any time within a few days of its original airing. ACVREP and continuing education credits are available.

Webcasts www.perkins.org/resources/webcasts

On-demand webcasts are presented by experts in the field of visual impairment and deafblindness. Whether your focus is professional or personal, you will find topics of interest, including social skills, assistive technology, and independent living skills.

WonderBaby.org www.wonderbaby.org

Our site supports parents of children who are blind, as well as children with multiple disabilities. Read articles written by parents who want to share what they've learned about raising a child who is blind and find ways to connect with other families.

Educator Series www.perkins.org/resources/educator-series

Monthly e-newsletter and online archive of advice, activities, curriculum, webcasts and other information for teachers, parents and other professionals. Recurring columns include *Cindy's Corner*, *Ask the Expert*, and *About the Authors*.

Scout www.perkins.org/resources/scout

Information Clearinghouse on Blindness and Visual Impairment with a searchable list of carefully evaluated resources related to blindness and visual impairment. The range of topics includes general information on blindness, help for families with relatives who are visually impaired, and resources for educators and other professionals.

Transition Planning Asia www.transitionplanningasia.org

A practical resource for teachers, rehabilitation workers, and parents interested in all aspects of transition for youth in Asia who are blind or visually impaired with additional disabilities. The interactive features of the site allow users to post case studies, functional activities, examples of transition programs, and other resources from around the Asia Region.

Accessible Science www.perkins.org/resources/curricular/accessible-science

Curricular resources for making science accessible to students who are blind or visually impaired. Includes ideas for activities and materials related to Life Sciences, Physical Sciences, and Technology & Engineering.
