
MEMORANDUM No. 2013-028

TO: District Superintendents
Pupil Transportation Supervisors

FROM: Bruce Hayes, Ed. S., School Safety Consultant
Support Systems and Resources Division

DATE: March 3, 2014

SUBJECT: WeTip Magnetic Signs

WDE OFFERS WETIP LINE SIGNS FOR BUS INTERIORS

Two different designs available

The Wyoming Department of Education is making signs available to districts for use in school bus interiors. They will serve as a reminder to students that the school safety anonymous tip line is a tool that can help.

The two designs that are available are enclosed. Each sign is eight inches by ten inches. They are magnetic and designed to be placed on metal surfaces. Examples of the signs can be found on page two of this memo.

If you are interested, please let me know the quantity and kind of signs you will need (maximum one sign per bus). I handle each order on a first-come, first-served basis until the allocated funding runs out. In the event of a high-volume response, delivered sign quantities may have to be changed to expand district participation. Please respond by March 14, 2014.

Requests may be emailed to bruce.hayes@wyo.gov. Please entitle the email "Magnetic Bus Signage." Thank you for helping keep schools safe.

For more information on the School Bus Signage, contact Bruce Hayes at (307) 777-6198 or bruce.hayes@wyo.gov.
