MEMORANDUM NO. 2010-136

TO: School District Superintendents

FROM: Mary Kay Hill, Director
Administration Division 

DATE: August 13, 2010

SUBJECT: Gifted & Talented Programs – A Recalibration Survey

TIME SENSITIVE MATERIAL

During the July 21-22, 2010, Select Committee on School Finance Recalibration meeting, the Select Committee requested the state's school finance consultants to provide additional information on the delivery of gifted and talented education to identified students by Wyoming school districts. To accomplish this charge, a survey has been developed to provide the Select Committee with information to help direct discussion on this topic. We ask districts to please complete the survey no later than August 27, 2010. Questions in the survey pertain to the provision of gifted and talented education delivered to identified students during the school year and the school day (rather than enrichment activities available to a broader group of students). It can be accessed at

<http://www.zoomerang.com/Survey/WEB22B2SEB2Q5T>.

We realize this turnaround time is short, but the Select Committee is working within in a very limited timeframe. The survey has been designed with input from the state's data advisory committee with a goal of reducing redundancy and fully utilizing district information already on file with the Wyoming Department of Education.

We appreciate your help with this task, and should you have any questions, please feel free to contact Ruth Sommers at (307) 632-0157 or somm8@bresnan.net.
