MEMORANDUM NO. 2011-074

TO: School District Superintendents
School Principals

FROM: Bruce Hayes, School Safety Consultant
ICS/HSN Division

DATE: May 16, 2011

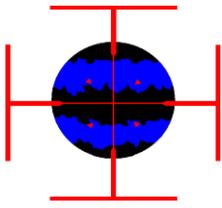

SUBJECT: E-Waste Disposal

E-WASTE REMINDER

This is just a reminder that there is only one and a half months left to remove e-waste at very low cost before June 30. As a point of clarification, only two types of electronic products are removed on a \$4.50 cost per unit basis. All other electric items are free. See the enclosure for details.

If you are interested, please call Jeff Stumpf at 307-632-0054. If you have any questions, please feel free to call me at 307-777-6198 or email me at bhayes1@educ.state.wy.us.

E-WASTE DISPOSAL

There is a temporary window of opportunity that schools and districts can recycle their electronic waste (e-waste) and steel items (i.e. steel cabinets, shelves, network racks, etc.) and receive great incentives. This type of opportunity is rarely presented and we are asking as many schools and districts as possible to participate. The incentives and guidelines have been outlined below.

1. Pickup of materials is being offered free of cost.
2. There is no limit to the amount of material that can be recycled during this time period.
3. The only charges that will be applied during this recycling event will be for CRT monitors, CRT televisions, projection televisions, CRT all-in-ones, or any material containing a cathode ray tube (CRT). The charge will be \$4.50 for each of the units outlined.
4. These incentives will only be put into effect if the participating school or district is placed on Tattooine Electronic Systems Inc pickup schedule on or before June 30, 2011(except for Laramie County School District #1 which has a long term contract).

All schools or districts that can participate are urged to do so. To participate please contact Tattooine Electronic Systems Inc;

- Phone: 307-632-0054
- Email: Recycle@tattooineinc.com
- Website: www.tattooineinc.com
- Fax: 307-632-5113

All material must be located in such a way that the pickup crews can easily load the material onto semi-trucks. We look forward to seeing a large amount of support in our efforts to properly dispose of our surplus and obsolete e-waste.
