The Environmental Protection Agency (EPA) Region 8 will host a Clean, Green and Healthy Schools webinar series every Wednesday for six weeks starting on January 18, 2012 at 3:30 MST. The webinar series is designed for schools serving tribal communities. School administrators, risk managers, educators, health and safety coordinators, school health professionals, environmental protection personnel, parents of school children, communities, and EPA personnel should plan to attend.

The goal of the webinar series is to provide information and tools for school personnel and EPA personnel to ensure that schools are clean, green and healthy for themselves, school children and their community. Please register to attend. You may attend one or more presentations in the webinar series and there is no cost to attend.
