MEMORANDUM NO. 2012-097

TO: Superintendents
Curriculum Directors

FROM: Cindy Hill

DATE: May 29, 2012

SUBJECT: Regional Educational Laboratory – Central

INFORMATION TO SHARE

The Wyoming Department of Education (WDE) is pleased to announce a new partnership with the Regional Educational Laboratory – Central (REL Central) located at the Marzano Research Laboratory in Englewood, Colorado. REL Central is one of 10 Regional Laboratories across the country that received a contract from the U.S. Department of Education to build alliances with state and educational leaders and to provide supporting applied research. The REL Central region includes Colorado, North Dakota, Kansas, Missouri, Nebraska, South Dakota, and Wyoming.

Dr. Robert Marzano, the Executive Director of REL Central, met with WDE staff to discuss turning research into action and examining innovations in education policy and practice.

We encourage districts to use REL Central as a resource and to contact Dr. Marzano or Dr. Terri Martin at the REL Central:

Central States Educational Laboratory
9000 E. Nicholas Avenue
Englewood, CO 80112
