The Wyoming Department of Education is currently awaiting approval of its 2012 Accountability Workbook by the United States Department of Education (USDE). New proficiency targets for 2012 have been recalculated since writing and the PAWS-ALT Portfolio of Student Work (PSW) were eliminated for 2012. The results will be released to the school districts as soon as we have final USDE approval and have completed all requirements related to calculations. The public release will be two weeks after the release to the districts.
