MEMORANDUM NO. 2013-074

TO: School District Superintendents
Building Principals
Technology Directors
WEN Video Schedulers
Curriculum Coordinators

FROM: Jim Rose
Interim Director

DATE: June 3, 2013

SUBJECT: Unified Video Collaboration - Education Study

INFORMATION TO SHARE

The direction of Wyoming's two-way-interactive video collaboration is changing. Our current WEN Video system is designed around Tandberg video endpoints.

The service agreements for these endpoints are nearing end-of-life and the use of the Tandberg equipment will be phased out. I am asking for your input to help guide the new direction of interactive video and the Wyoming WEN Video system.

Please take five minutes to respond to the following survey and provide your input by the end of this week:

If there are any questions regarding the survey or the collaborative process for determining a new educational video solution, please contact Scott Bullock (307-777-7418 or scott.bullock@wyo.gov) at the Wyoming Department of Education or Summer Wasson (307-777-5318 or summer.wasson@wyo.gov) at the Department of Enterprise Technology Services (DETS).
