MEMORANDUM NO. 2015-099

TO: School District Superintendents
Principals

FROM: Bruce Hayes, School Safety Consultant
Accountability Division

DATE: September 8, 2015

SUBJECT: Hazardous Materials Guidelines

UPDATED EDITION OF SAFETY PUBLICATION RELEASED

The fifth edition of the Wyoming Hazardous Materials Guidelines has been released. It updates terminology, definitions, and links from the prior iteration, which was released in 2012.

Proper storage and disposal of hazardous materials are critical to keeping our schools safe. These materials are used by schools in chemistry labs, custodial closets, kitchens, and even bathrooms.

The Guidelines are available as an attachment to this memo, and also on the web at <http://edu.wyoming.gov/in-the-classroom/health-safety/facilities-safety>.

Contributions were made by the Department of Environmental Quality, and the University of Wyoming served in a consultative capacity. Please ensure that your chemistry instructors and other applicable staff have a copy.

For more information, please contact Bruce Hayes, School Safety Consultant, at 307-777-6198, or email bruce.hayes@wyo.gov.
