SAFETY PUBLICATION: UPDATED EDITION

The Sixth Edition of the Wyoming Hazardous Materials Guidelines is now available. This document provides guidance for the proper and safe storage/disposal of toxic chemicals and other hazardous substances. This edition updates terminology, definitions, and links from the 2015 Edition. Consultative contributions were made by the Department of Environmental Quality and the University of Wyoming.

The attached guidelines can be accessed on the [Wyoming Department of Education website](#).

Chemistry instructors and other applicable staff should retain a copy in their classrooms.

For questions, contact Bruce Hayes at bruce.hayes@wyo.gov or 307-777-6198.
