

Leadership

in Personalized and Digital Learning

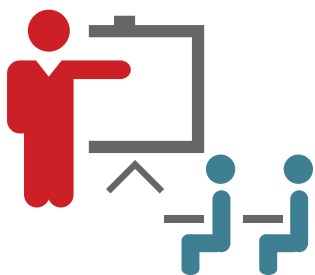

Building Innovative Leaders

ANNOUNCING A NEW PROGRAM IN WYOMING!

We are excited to announce **The Leadership in Personalized and Digital Learning (LPDL) cohort** for the 2018-2019 year. This cohort of Wyoming Innovative Leaders offers principals, superintendents, and district leaders an opportunity for job-embedded professional learning experience to prepare you to lead a transition to personalized learning in your district or school. As a participant in the program you will have face-to-face and virtual opportunities to work with trained facilitators and other leaders in a cohort of other Wyoming Innovative Leaders. This program goes deeper than traditional sit-and-get professional development because it:

1

is **job embedded**; activities and planning are **immediately applicable** in your school

2

sets aside the **time** you need to **make a plan**

3

gives you access to **data collection tools** to drive decisions

4

connects you to a diverse group of principals & districts

5

is based on a **proven** national professional learning program for leaders

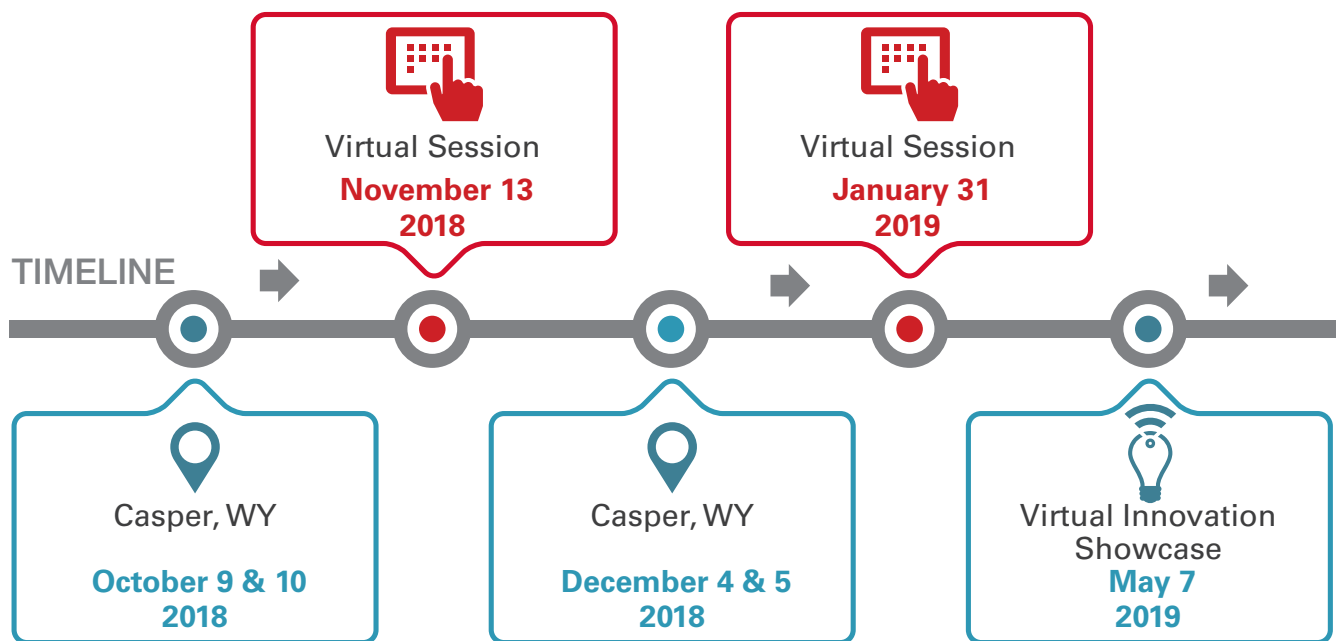

FOCUS QUESTIONS

As a participant in this program you will have opportunities to expand your learning, collaborate with peers, and develop action steps for your own school or district. The program will focus on helping you tackle these questions:

- What is personalized and digital learning?
- How do I establish a culture for personalized learning in my district or school?
- What supports do teachers need to transition to personalized learning?
- What systems need to be in place for a successful personalized learning transition?
- How do I plan for sustainability of my personalized learning transition?

2018-19 NEW COHORT

I have become re-energized by participating in the program and have been able to voice and reiterate our goals for a Personalized Digital Teaching and Learning environment to my staff and to our local Board of Education. I have become even more knowledgeable of how to successfully implement change and have been able to better communicate the steps necessary to accomplish this change....
