WYOMING
DEPARTMENT OF EDUCATION

MEMORANDUM NO. 2020-178

TO: School District Superintendents
School-Level Administrators
Teachers of Grades 6-12
Counselors
Instructional Support Staff
Curriculum Coordinators

FROM: Kari Eakins, Chief Policy Officer

DATE: December 7, 2020

SUBJECT: Computer Science Implementation Progress Survey

COMPUTER SCIENCE IMPLEMENTATION PROGRESS SURVEY

The Wyoming Department of Education (WDE) seeks responses for the Computer Science Implementation Progress Survey to determine how to support schools and districts surrounding their implementation of Computer Science education.

The online survey links will be sent by email the week of December 7, 2020. The survey will close on December 18, 2020.

In March 2018, the Wyoming Legislature passed a bill requiring Computer Science (CS) education to be offered to all students in grades K-12. In April 2018, the WDE launched Boot Up Wyoming 2022, an initiative to implement CS in all Wyoming schools. As part of the initiative, the WDE was awarded the Perkins Innovation & Modernization Grant as a pilot project to prepare teachers in the area of CS. By surveying districts and schools on the progress toward implementation, the WDE can further assist in supporting districts and their teachers.
