## MEMORANDUM NO. 2022–048

**TO:** School District Superintendents  
Principals  
Math Teachers - Grades 1-8  
ELA Teachers - Grades K-12

**FROM:** Wanda Maloney, Chief Policy Officer

**DATE:** April 18, 2022

**SUBJECT:** 2022 Lexile® and Quantile® Summer Learning Opportunities

---

## SUMMER LEARNING FOR STUDENTS IN READING AND MATH

Each year, MetaMetrics provides free resources to help engage students in learning through the summer to help combat summer learning loss.

Parents and students can use the Lexile® [Find a Book](#) tool to find books that match their reading level and interests.

Parents can also sign students up for the Quantile® [Summer Math Challenge](#) which is a six-week program of math practice with grade-level topics. This year's Summer Math Challenge will begin on Monday, June 20, 2022.

Lexile® and Quantile® measures are reported on the WY-TOPP Individual Student Report (ISR) that schools send to parents. Both tools have features which allow students, parents, and educators to estimate a Lexile® or Quantile® measure.

Note: The Lexile® and Quantile® Hub, which houses the Summer Math Challenge, works best on a laptop or desktop computer, using the Google Chrome or Firefox browser. Unfortunately, Internet

Explorer is not compatible with the Hub, and tablets and smartphones with their small screen size often do not accommodate the use of the tools well.
