TO: School District Superintendents
K-12 Principals
Directors of Special Education
Principals
District Test Coordinators
Building Test Coordinators
Curriculum Coordinators

FROM: Wanda Maloney, Chief Policy Officer

DATE: October 10, 2022

SUBJECT: Fall 2022-23 Student Climate Survey Points-of-Contact and Non-Alternative School Sign Up

FALL STUDENT CLIMATE SURVEY WINDOW OCTOBER 31- NOVEMBER 18, 2022

It is requested for all required alternative schools and schools volunteering to fill out the Survey Participant Questionnaire [form](#) for updated Points-of-Contacts information. Although this memo pertains to alternative school accountability, the student climate survey is available to all Wyoming schools that serve grades 6-12.

The fall student climate survey window will be open from October 31-November 18, 2022. All schools that serve grades 6-12 are invited to participate in the student survey, but it is required for all alternative high schools as part of the climate indicator in the alternative school accountability model. All 6-12 schools, including alternative schools, that intend to participate in the student survey must complete the Survey Participant Questionnaire [form](#) no later than October 16, 2022.

The 24-item student climate survey uses a Likert scale to measure students’ perceptions related to trust, respect, support, and high expectations. Additionally, the survey includes one open-ended question: “Is there anything else you want to tell us about your experience at this school?” The

survey is administered online and takes about 20 minutes for students to complete. Each student will receive a unique identifier to login to the survey. The race, ethnicity, and other subgroup information will be used to provide aggregated reports back to the state, district, and schools. Individual student responses will not be reported back to the Wyoming Department of Education (WDE) or district staff.

The WDE worked with an alternative schools technical advisory group to develop a framework for alternative school accountability. This allows the school performance ratings to reflect a more accurate representation of alternative school performance under the Wyoming Accountability in Education Act. As such, alternative school accountability is based on a model that meaningfully differentiates performance among alternative schools, rather than to compare alternative schools to traditional high schools in Wyoming.

For more information, contact Sean McInerney, Accountability Director, at 307-777-8740 or sean.mcinerney@wyo.gov or Jennifer Lahiff, Accountability Supervisor at 307-777-8752 or jennifer.lahiff@wyo.gov.
