SCHOOL HEALTH STAFF SUPPORT

The Wyoming Department of Education (WDE) is offering support to school health staff through Cognitive Behavioral Theater.

The training includes Zoom live sessions focused on Empathy Training, Effective Communication, and Resilience among others. There is also an opportunity for self-paced online modules to gain Continuing Education credits.

These sessions have been offered to school nurses in Wyoming since August 2022. The WDE would like to extend this opportunity to other school health staff who may be interested. More information, including the schedule and online module links, can be found [here](#).
