CALL FOR PARTICIPANTS – 2014 SCIENCE STANDARDS REVIEW

Participation interest survey open until June 14, 2014.

CHEYENNE - A call is going out to all Wyoming residents who are interested in serving on the 2014 Wyoming Science Standards Review Committee. The work of this committee will begin this summer with 2-4 days of meetings in July and August and continue for approximately 10-18 months. We anticipate another 1-4 days of meetings during the 2014-2015 school year.

The science standards will outline what students should know and be able to do at the end of a grade level. Standards are concise, written descriptions that describe educational objectives. They do not describe any particular teaching practice, curriculum, or assessment method.

If you are interested in serving on this committee, please complete the survey by clicking on the following link: <https://www.surveymonkey.com/s/2014ScienceCommittee>

The survey will close at 11:45 p.m. on Saturday, June 14, 2014.

Please note: Completing this survey does not commit you to anything at this time, nor does it sign you up to serve. You are simply expressing an interest to participate. Standards committee members will be chosen from the list of those interested and will be contacted directly through the e-mail address they provide in the survey.

For questions regarding the committee work or the survey, please contact Laurie Hernandez at laurie.hernandez@wyo.gov or 307-777-3469.
