Retention Rates by Institution and Scholarship Level

Retention Rate means the measure of the rate of continuous enrollment of a cohort of students from one semester to the next.

In this report, the fall enrollment counts include students who did not receive the scholarship but used the semester to regain eligibility.

The students are assigned to the college they were enrolled in during the fall semester. They did not necessarily enroll in the same institution in the spring.

Loss of Eligibility
### Overall Loss of Eligibility After 2nd Year

#### by Institution and Scholarship Level

This report includes all students who lost eligibility during the academic year (2007-08).

The pool of students who could potentially lose the scholarship is composed of the number of students who remained eligible after the prior school year + students who lost eligibility after the prior school year, but regained eligibility after the fall term of this school year (2007-08).

A student enrolling in more than one institution during the year is only counted once and is assigned to the last institution he/she enrolled in within the school year.
