

Hathaway Success Curriculum Course Identification WDE950 Graduating Student Transcripts – Wyoming Transcript Center

Hathaway Success Curriculum courses are submitted to the Wyoming Department of Education (WDE) each year for review and approval. The Hathaway Scholarship Program Success Curriculum Course Verification forms are collected from each school district to verify the Success Curriculum courses they wish to provide for students *the following school year*. The review and approval process is completed prior to spring registration so staff and students are aware of the Success Curriculum courses that have been verified for the next school year.

Hathaway Success Curriculum courses are also indicated on the WDE638 WISE Course Inventory Upcoming School Year collected each summer as well as the WDE638B and WDE638C collected the following March/April and June, respectively. Courses approved on the Success Curriculum Course Verification are indicated “Y (Yes)” on the related school year WDE638 Collections.

To identify Hathaway Success Curriculum courses on 12th grade transcripts, districts may refer to the relevant school years’ Hathaway Success Curriculum Course Verification forms or the final WDE638 reports (both sources should have the same Success Curriculum courses identified for each related school year).

Although variations are generally minimal, Hathaway Success Curriculum courses can change from school year to school year. Therefore, to ensure that all Success Curriculum courses are appropriately identified on a grade level twelve transcript, districts must indicate the courses based on the Verification Forms or the final WDE638 Collections from all corresponding school years the student may have taken Success Curriculum courses. The following table illustrates the relevant school years students who graduated in 2013-14 may have taken Hathaway Scholarship Success Curriculum courses:

Grade Level	School Year
