**District Comments:** This course is an on-line course through BYU and the grade is provided from them as well. If you need more information we can provide it.

\* This course was listed with a more compressed title format last year. The Character of Americas have always been two separate classes and the change and addition reflect this.

\*\* This name change and course addition reflect a correction from a more compressed title format from the 2008-2009 report. They have always been separate courses.

\*\*\*Applied Economics and Consumer Economics are being replaced by Understanding Economics which more closely matches district requirements.

\*\*\*\*American Government is being replaced by US Government & Citizenship which more closely matches district requirements.

\*\*\*\*\*This course was added per student request. This is an on-line course provided by BYU with grade from them also.
