

Chapter 43
School Nutrition Project

STATEMENT OF REASONS

Enrolled Act No. 52 titled: School Nutrition Pilot Project, was passed during the 2017 general session and was a project designed to enhance protein in school lunches. This act authorized the Wyoming Department of Education to provide for a grant program and required the rulemaking associated with this act. During the 2018 budget session this project was extended for the 2018-2019 and 2019-2020 school years. The proposed revisions reflect the extension of this program.
