Western Regional Early Intervention Conference Traditions Serving Families Today and Tomorrow

The Western Regional Early Intervention Conference (WREIC) is designed to support professionals working with children birth to five who are deaf, hard of hearing, blind, visually impaired, or deaf-blind and their families.

The WREIC has been in place for over 30 years, making it one of the longest ongoing early intervention conferences in the nation. Speakers and workshops have always focused on the most current research, technology, resources, and practices in our ever-evolving field. Given this rich history and the exciting current and future possibilities in this field, the theme for the 2015 WREIC is “Traditions and Innovations: Serving Families Whose Young Children are Blind, Visually Impaired, Deaf, Hard of Hearing, or Deaf-Blind”.
