CPR TRAINING – WYOMING HEALTH EDUCATION STANDARDS

Training of students in CPR techniques meets Wyoming Health Education Content and Performance Standards Grade 12 benchmark HE12.1.2 under Health Standards 1, *Health Information, Products and Resources*, which states, “Students will access, analyze and evaluate health information, products and resources,” and benchmarks HE12.2.1 and HE12.2.2. under Health Standards 2, *Problem Solving and Decision Making*, which states, “Students will use critical thinking and systematic processes to examine health related problems and make decisions that enhance health and reduce or avoid health risks.”

Benchmark HE12.1.2, reads, “Locate and evaluate appropriate resources at school, in the community and beyond that help to reduce health risks. (e.g., human resources, printed and electronic resources, equipment and facilitates, etc.)”

Benchmark HE12.2.1 reads, “Analyze the types of decisions that would be appropriate for a specific health related situation (e.g., 1-step/automatic process appropriate for emergency, 5-step process appropriate for long-term decision).”

Benchmark HE12.2.2, reads, “Apply a systematic decision making process that includes evaluation of consequences to enhance health (e.g., impact of decision on self, on others).”
