# Introducing OER Commons and the [Open Range Wyoming Hub](#)!

## Getting Started with OER

From a single point of access in OER Commons, you can search, browse, and evaluate resources. Here are some curated collections from the entire website to start exploring:

- [Interactive mini-lessons and simulations](#)
- [K-12 lesson plans, worksheets, and activities](#)

## Open Range Hub

- [Wyoming Aligned Science Resources](#)
- [Wyoming Aligned Math Resources](#)
- [Wyoming Aligned ELA Resources](#)

And so much [more](#)!

## Sharing is Caring

Sharing happens between people. A main feature of the Open Range Wyoming hub is the different groups you can join.

Groups provide a connecting point for sharing; a center where users can gather to discover, recommend and collaborate on resources and ideas.

Wyoming's Open Range hub offers many different groups:

- [Pre-K Through 6th Grade](#)
- [7th-12th Grade](#)
- [Higher Education](#)
- [Adult Basic Education](#)

**Explore the different areas to find the right one for you!**

For more information, contact Alisa Cook at 307-777-3679 or [alisa.cook1@wyo.gov](mailto:alisa.cook1@wyo.gov).

## Open Educational Resources

## What are Open Educational Resources (OER)?

Open educational resources are resources that are freely available online for everyone to use. OERs include full courses, course materials, modules, textbooks, streaming videos, tests, software, and any other tools, materials, or techniques used to support access to knowledge.
