

# Desmos Calculator for Grade 6

The Wyoming Test of Proficiency and Progress (WY-TOPP) uses Desmos as the online [calculator](#).

## Grade 6: Four-Function Calculator

Desmos is available to use for practice at any time. The version available at [desmos.com/fourfunction](https://www.desmos.com/fourfunction) is exactly the same as that which grade 6 students will see on WY-TOPP.

## Accessibility

The four-function calculator on WY-TOPP is accessible for vision-impaired and blind students. It complies with the WCAG 2.1 standards at the AA level, and works with most assistive technologies, like screen readers. For more information, visit [www.desmos.com/accessibility](https://www.desmos.com/accessibility).

## Additional Practice for Teachers and Students

The Desmos four-function calculator is available at their [website](#).

Four-function calculator tutorials are available at <http://learn.desmos.com/fourfunction> and can read the [Desmos User Guide \(English\)](#) to learn more about the Graphing calculator's functionality. The Desmos User Guide is also available in [Spanish](#) and 16 other languages.
