

CSI, TSI, and ATS Rules

CSI Rules (Identified Every 3rd Year - 2021-22 performance used for identification)

- There are 3 ways to be identified as CSI
 1. All School Performance-
 - Title I Schools only
 - A school must have an average indicator score of 1.0.
 - Be in the bottom 5% of Title I Schools in School Performance (average achievement and growth)
 2. Low Graduation Rate-
 - A school that graduates less than 2/3rds of the on-time 4-year cohort (any school not just Title I).
 3. ATS Non-Exit-
 - A school that has been identified as ATS and not exited during the 4 years past the identification year.
- Exit Rules for CSI
 1. All School Performance-
 - A school must have an average indicator score of greater than 1.0 for 2 consecutive years.
 2. Low Graduation Rate-
 - A school must graduate greater than 2/3rds of their on-time 4-year cohort.
 3. ATS Non-Exit-
 - A school must have an average indicator score of greater than 1.0 for 2 consecutive years for the identified subgroup.

TSI Rules (Identified every year)

- Identification of TSI
 - This designation applies to all schools (including not Title I schools) and subgroups.
 - TSI Criterion: A school meets the annual TSI Identification Target for two consecutive years for a given subgroup
 - * The TSI identification target is met within a given year when:
 - A school meets the minimum n for the given subgroup
 - The school has an average indicator score of 1.0 for the subgroup
 - The average achievement and growth score is among the bottom 10% of all schools that meet the minimum n for the subgroup
 - A school identified as TSI cannot meet the requirements for ATS identification (ATS schools must be TSI eligible but are identified as ATS rather than TSI)
- Exit Rules for TSI
 - A school must have an average indicator score for the given subgroup of greater than 1.0 for 2 consecutive years.

ATS Rules (Identified Every 3rd Year - 2021-22 performance used for identification)

- Identification for ATS
 - A school must have met the TSI criterion for the identification year for the given subgroup – AND –
 - Have an average achieve and growth score for a given subgroup below or equal to the maximum score of any school identified as CSI under CSI criterion 1 (All School Performance)
- Exit Rules for ATS
 - A school must have an average indicator score for the given subgroup of greater than 1.0 for 2 consecutive years – OR –
 - If a school has not exited ATS by the fourth year after the identification year, they transition to CSI (i.e., they are no longer ATS).
