

6-Mill Distribution Fiscal Year 2024

Authority - W.S. 21-13-201(b): On or before September 1 of each year, the Wyoming Department of Education shall notify the treasurer of each county of the percentage proportion to be allocated from the countywide six (6) mill school levy to each school district in his respective county. The computation of the distribution of the countywide six (6) mill levy shall be made by the department of education on the basis of the average daily membership (ADM) for the previous year. This number, for each district, shall be converted into a percentage of the total average daily membership (ADM) for all school districts within the county. The county treasurer shall distribute the revenue arising from the countywide six (6) mill levy among the school districts of the county according to the percentage computed above and pursuant to W.S. 21-13-207.

In some cases there are school districts that have property taxes assessed for their school district in another county. This is known as the "cross-county adjustment" and the other county pays the school district that portion of the county's taxes. A map of the cross county school districts is available at the following link:
