June 26, 2024 8:00 am - 4:30 pm

The Wyoming Department of Education is pleased to announce the 2024 Embracing Literacy Conference, a five-day celebration of literacy and learning! The in-person sessions will take place at the Gateway Center in Laramie on June 18-20 and continue into two days of virtual sessions on June 25-26.

The conference offers multiple learning paths for educators who wish to enhance their knowledge of evidence-based literacy practices. You will embark on a journey of exploration and development as you build knowledge of evidence-based reading instruction through four distinct paths: Early Foundations, Primary Literacy, Adolescent Literacy, and Literacy Leadership.

The five-day conference, three in-person and two virtual days, features morning and afternoon keynote speakers, district spotlights, and multiple 60-minute presentations. We highly suggest that you make the most of both the in-person and virtual options, as there is an impressive lineup of speakers!

PTSB and UW credits will be available.
