

Proposed 2023 Physical Education

Wyoming Content & Performance Standards (WYCPS)

Effective - XX, 2024

To be Fully Implemented in Districts by the Beginning of School Year 2026-27

Rationale: The goal of physical education is to develop physically literate individuals who have the knowledge, skills, and confidence to enjoy a lifetime of healthful physical activity.

The Wyoming Physical Education Standards include: 1) Movement Skills; 2) Fitness; and 3) Personal and Social Behavior. Basic movement skills, essential knowledge and understanding of physical activity and fitness, and the building blocks of personal and social behavior are introduced at the kindergarten-2nd grade span. Competency in movement skills and patterns for successful movement performance and the understanding of the benefits of physical activity and fitness, while developing responsible interactions with others, are further emphasized at the 3rd-5th grade span.

At both the 6th-8th and 9th-12th grade levels, students are extending their understanding of movement, fitness literacy, and personal and social responsibilities related to physical activity. They are taking the basic skills learned by the end of 5th grade and applying them in more complex movement settings. By the 12th grade, it is expected that students master the skills and acquire the knowledge to participate in a variety of physical activities that will enhance health-related physical fitness.

Organization of the Standards:

[Code=Grade.Content Area.Domain.Standard#]
